RE: Direct-Push Groundwater  
Sampling

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Project Specific Plan (PSP) for direct-push sampling in the former inactive flyash pile/southfield area.

The PSP appears adequate and consistent with other such documents. Therefore, the U.S. EPA approves the PSP for direct-push groundwater sampling in the former inactive flyash pile/southfield area.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
